POLICY DOCUMENT FOR ENERGY USAGE

RJSPM's Institute of Computer and Management Research follows energy usage policy which is designed for systematic energy management to minimize its impact on the environment. The policy implies to identify alternative natural renewable energy resources to reduce the burden of cost as well as pollution and to find out answer to the impending energy crisis. The college believes in reducing the consumption of electricity produced by non-renewable resources by switching to renewable energy sources like solar energy for purpose of electricity requirement of the campus. We commit to install and use environment-friendly electrical appliances that help to save energy. The college uses power saving equipment's such as LED lighting, energy efficient equipment's and electronic appliances like CCTVs, Computers etc.

Natural renewable energy sources like solar energy have remarkably reduced the electricity bills of the campus to the negative side.

Policies:

To install energy efficient energy lights LED's in entire campus, to lower energy consumption, decrease maintenance costs and to save the energy and expenses.

To prefer regular use of energy efficient equipment's over conventional equipment's.

To conduct regular energy audits and follow the instructions and advices given by auditing agency.

RJSPM's Institute of Computer and Management Research has installed 3 phase solar rooftop power plant of capacity 10KWP.

- To reduce air pollution in college campus we promote use of bicycles, public transportation and pedestrian-friendly roadways and also we restrict entry of automobiles in college campus.

- To take more initiatives for continuous decrease in energy usage.
- To promote use of recent advanced technology to decrease energy consumption.
- To ensure the accessibility of required resources to accomplish our objectives.
- To actively work with the local organizations in the areas of energy efficiency as well as environment protection. These organizations include Government agencies, Municipal Corporation and affiliated University.
- To give information and guidance opportunities on energy conservation measures.
- To encourage and provide opportunities to employees and students to connect with initiatives for environmental protection.
- To promote promotional activities and knowledge on environment protection among our students by displaying boards and hoardings in the campus for energy conservation.
- To utilize daylight at its maximum extent and turn off unnecessary lights.

Facilities for alternate sources of energy and energy conservation measures

At our RJSPM's Institute of Computer and Management Research, we conduct various energy conservation practices to save energy. Some energy conservation measures are as follows;

- We installed energy efficient energy lights LED's in all college campus. It helps us to lower energy consumption, decrease maintenance costs and used as energy efficient system to save the energy and expenses.
- We purchase energy efficient equipment e.g.; refrigerator, CCTVs etc.
- We conduct energy audits and follow the instructions and advices given by auditing agency.
