Policy for management of degradable and non-degradable waste

RJSPM's Institute of Computer and Management Research has concern to safeguard environment, health and well-being through implementation of effective waste management practices such as segregation of waste and recycling of it. There are following types of wastes generated in the college as,

- 1) Solid waste management
- 2) Liquid waste management
- 3) E-waste management

Policy Objectives:

The objectives of management of degradable non-degradable and waste policy are:

1. Disposal of solid waste through segregation, collection and treatment and disposal in an environmentally friendly manner.
2. To encourage environmental awareness in order to enhance and encourage related to waste minimization, reuse and recycling of waste.
3. Appropriate disposal and handling of different types of wastes.
4. To decrease consumption and the amount of waste produced as well as encourage for recovering and recycling waste where possible.
5. To conduct various awareness programmes such as cleanliness drives and plastic free activities.
6. To utilize solid waste in the form for compost.
7. To collect and dispose E-waste with the help of recycling agency.
8. To dispose liquid waste generated in laboratories after pre-dilution with water in soak pit.

Solid waste management:

- ❑ Solid waste is segregated at source and collected by housekeeping staff to dispose off properly. Dustbins have been kept throughout campus for waste segregation.
- ❑ Single-use plastic stuffs such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among all teaching, non-teaching staff and students.
- ❑ Some of the common solid wastes include daily garbage comprising of white used papers, card sheets and materials, rubber waste, plastics, cardboard materials, etc. These are collected in dustbins placed in the campus. Collected solid waste handed over to municipality vehicle for proper disposal.
- ❑ For disposal of papers “Recyclers India Shredding Services” an agency in Pune is engaged for shredding services.
- ❑ Institute collects plant debris and put it in the solid waste disposal compost pit.
- ❑ Institute has installed sanitary napkin vending and disposal machine, which helps in instant disposal of used napkins in a very scientific and hygienic way without generating harmful emissions.

E-waste management:

- Electronic waste generated is known as e-waste. E-waste is produced when and electrical equipment's has reached the end of its useful life.
- E-waste is generated in institute such as broken pen drives, different parts of computer, cables and other generated E -waste is collected in E-waste store area.
- Institute has tie up with authorized e-waste collection agency, "Kuldeep E-waste disposals" which periodically collects E-waste from institute for its safe recycling and disposal.

Water conservation facility: Rain water harvesting

Rain water harvesting is a system which includes the collection and storage of rain water to increase the underground level of water. The RJSPM's Institute of Computer and Management Research has implemented the RainWater harvesting project. The rain water falling on the terrace is collected through pipes then it is collected in tank and is used for increasing the underground water level.

WATER CONSERVATION FACILITY

Construction of tanks

In RJSPM's Institute of Computer and Management Research, Municipal cooperation water supply and bore well is the sources of water supply in college campus. Our college is aware about the water conservation measures and problems associated water shortage so that, in college campus we follow the practices for water conservation and efficient use of available water. Water tanks are constructed in campus for proper storage of water. Water is pumped into storage tanks located at different places in the campus. There are presence overhead storage tanks. The water is distributed through pipe network in college campus. Maintenance of water bodies and distribution system is periodically carried out to avoid the loss of water by leakage.

Water Storage Tank

Maintenance of water bodies and distribution system in campus:

Drinking water facility after treating in RO plant is available in college campus. Water is supplied through set of distribution pipes throughout the campus. Entire distribution system is well supervised to ensure that there are no leakages and wastages of precious water through joints, valves etc., in premises.

Environmental and Green campus:

Rajmata Jijau Shikshan Prasarak Mandal's Institute of Computer and Management Research has taken initiatives to implement eco-friendly practices in the campus. A green campus is a concept where continuous efforts are taken to establish environmentally sustainable and eco-friendly practices. RJSPM's Institute of Computer and Management Research is regularly engaged in a variety of eco-friendly practices in our campus such as tree plantation, installation of solar energy panels etc. Efforts are being made to develop the campus on green concepts, particularly concentrating on water conservation, use of alternative and renewable sources of energy, use of different energy conservation methods, solid waste management, E-waste management etc.

Scope of the Policy:

The Green Campus, Energy and Environment Policies will develop exciting new practices that encourage students in creating positive change. Green campus is achieved by making significant progress in the campus in collaboration with community. The Institute has performed various protocols and programmes under green campus initiatives.

Objectives of the green campus program:

- To protect and preserve ecological systems and natural resources within the campus.
- To incorporate environmental initiatives into policies, plans and programmes for social development and outreach activities.
- To continuously expand our contribution to climate protection and adaptation to climate change and to the conservation of comprehensive resources.
- Effective use of conventional sources of energies for daily power needs, appropriated disposal and handling of different types of wastes etc.
- Everyone at the RJSPM's Institute of Computer and Management Research will work together to encourage a beliefs of self-sustainability and make the whole campus environmental friendly.
- To constantly improve the effective use of all natural resources like energy, water etc.
- To decrease consumption and the amount of waste produced as well as encourage for recovering and recycling waste where possible.

Major points focused under policies are:

- Clean campus initiatives
- Restricted entry of automobiles in college campus
- Pedestrian –friendly pathways
- Availability of sufficient dustbins for collection of different types of garbage
- Organization of campus cleaning activities and programmes
- Environment promotional activities and programmes
- Landscaping with trees and plants
- Water conservation system

- Availability of sanitary napkin disposal equipment
- Solid waste management processes
- E-waste management processes
- Environment-centric student societies and department activities
- Green Audit
- Energy Audit

RJSPM's Institute of Computer and Management Research actively coordinates cleanliness activities in the college campus and beyond the campus by organizing different activities like Swachh Bharat Abhiyan. The entry of automobiles inside the campus is restricted to reduce environmental pollution of campus. We encourage our students and staff to use public transportation. Single-use plastic stuffs such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among all teaching, non-teaching staff and students. Landscaping initiatives are best methods to build awareness around the environment. The landscape of trees and plants provide the students and staff with clean and cool air and a soothing environment.

The Municipal Corporation's water supply and bore well are the sources of water supply to the college campus. Our college is aware about the water conservation measures and problems associated with water shortage and therefore we follow the practices for water conservation and efficient use of available water. Water tanks are constructed in campus for proper storage of water. Water is pumped into storage tanks located at different places in the campus. Overhead storage tanks are also available. The water is distributed through pipe network in college campus.

Maintenance of water bodies and distribution system is periodically carried out to avoid the loss of water by leakage. Some of the common solid wastes include daily garbage comprising of white used papers, card sheets and materials, rubber waste, plastics, cardboard materials, etc. These are collected in dustbins placed in the campus and disposed in ecofriendly manner on daily basis. Separate dustbins are kept in campus for dry and wet waste. The glassware waste is collected and disposed properly. For disposal of papers "Recyclers India Shredding Services" an agency in Pune is engaged for shredding services. We collect E-waste and dispose it properly with the help of agency "Kuldeep E-waste disposals".

The college aims to regularly conduct a Green Audit of our college campus to assess our strengths and weaknesses and to further our goals of long-term sustainability. A green audit is a useful tool to determine how and where most energy or water or resources are being used. An Energy Audit is conducted and required to further reduce its carbon footprint. The importance of reducing energy consumption cannot be overstated. The energy audit, with its specialized tools will identify wastage of energy. Such an inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect.
